- Community consultation open - 18 August – 8 September 2025
- On-site drop-in session 27 August 2025
- 100 pamphlets letter box dropped to local residential area
- 2 Social Media Posts + E News

Key Themes from Feedback

- Inclusion of a greater variety of flowering trees and preference for trees other than gum trees
- Would like semi mature trees to screen the new aquatic centre building
- Would love to see understory planting for increased biodiversity
- Irrigation and maintenance upkeep is very important to ensure the landscape thrives.
