Project Information

We're planning to refresh the exercise equipment in Victoria Park / Pakapakanthi (Park 16) — and we want to make sure any upgrades reflect how **you** use the space.

Whether you're a regular visitor, a weekend jogger, someone who walks the loop with friends, or someone who might use the equipment **if it better suited your needs**, your feedback is essential.

Background

There are currently five fitness equipment stations located along the Victoria Park / Pakapakanthi (Park 16) track. Some of this equipment is ageing, no longer functional, and needs to be replaced.

Before we make any decisions, we want to work with you to understand what would best support your needs. You can help us decide whether the equipment should simply be replaced like-for-like, or whether there is an opportunity to introduce new equipment that better reflects how people use the space today.

This is a great opportunity to tell us:

- how you currently use the equipment,
- what works well (or doesn't work)
- what you would like to see in the future.

Your feedback will help shape the next generation of fitness equipment in Victoria Park / Pakapakanthi.

Timeline

- **10 December 2025 to 19 January 2026**

We're seeking your feedback on what equipment you would like to see in this space.

- **January 2025**

We will review all feedback received and use it to inform the future plans for the area. We will also report back to the you on what we heard and how it has shaped the next steps.

Following this, we will work to have the new equipment installed.

Frequently asked questions

How does this project fit in with the Victoria Park / Pakapakanthi (Park 16) Master Plan?

The project strengthens our focus on community health, updates ageing infrastructure, and expands opportunities for everyday recreation. Replacing the existing equipment will deliver modern, safe and accessible facilities, encourage more active use of the park, and improve the overall presentation and appeal of the space.

You can view the master plan here: <https://ouradelaide.sa.gov.au/draft-victoria-park-masterplan>

What equipment is being replaced?

At the three western fitness stations in the southern area of Park 16, the surface needs updating and the ground levels need adjusting to stop water from collecting in puddles after rain. Two pieces of equipment were recently removed because they had rusted, and we're now exploring options to replace them so the space continues to be safe, accessible and enjoyable for everyone.

Victoria Park / Pakapakanthi (Park 16) – Outdoor Fitness Equipment

Existing Outdoor Fitness Equipment Sites

What does the equipment that is currently there look like?

The current curved metal stretching bars were designed for basic mobility and low-intensity exercises but are now outdated, limited in function.

How will my feedback be used?

We will be gathering ideas from the community and then determining what can be delivered within the available budget and timeframes. Your feedback will help us understand your vision and what you would like to see in this space.

How do I provide my feedback?

Visit ouradelaide.sa.gov.au

Contribute your feedback via the **Online Survey** or post your pictures on the ideas board.

Drop-in Sessions

Tuesday, 16th December 10am-10.30am

Meet with a staff member

Email your comments to b.mesisca@cityofadelaide.com.au

Written Submissions

All written submissions must be received by 5.00pm on the 19 January and should be addressed to:

Community Consultation
Victoria Park / Pakapakanthi (Park 16)
GPO Box 2252, Adelaide SA 5001

What happens next?

We will acknowledge your feedback by email or in writing.

All feedback received will be reviewed to help determine the next steps for the equipment. This may include replacing the existing equipment or installing new equipment, depending on timing and budget constraints.

We will keep the community updated on the selected equipment and the expected installation timeframe.

Section 3

Q3. Why don't you use the equipment in Victoria Park

- ☐ Replace the equipment that was there.
- ☐ Install different equipment.

Q4. Please help us understand your response by leaving a comment.

Q4. If we changed the equipment, would that encourage you to use the equipment more?

- ☐ Yes
- ☐ No
- ☐ Unsure

Q5. What equipment would you like to see installed?

☐ Cardio and aerobic equipment

☐ Upper body strength

☐ Lower body strength

☐ Bar fitness

☐ Boxing, climbing and rings

☐ Other (please specify)

What happens next?

All feedback received will be reviewed to help determine the next steps for the equipment. This may include replacing the existing equipment or installing new equipment, depending on timing and budget constraints.

We will keep the community updated on the selected equipment and the expected installation timeframe.

Contact Details (optional)

Providing contact details in a feedback form is optional. However, we ask for this information because we want to know a little more about who you are and how you use the city to ensure we get a higher quality of data to go along with your feedback. The data will help us analyse feedback from specific groups (e.g. age, gender, City users), which in-turn will provide a richer and more valuable response to help Council make decisions.
